

Flexible control.

Control your life at the
touch of a finger.

The new Valet Smart Centre

VALET
Smart Centre

FLEXIBLE AND INTELLIGENT

Introducing the all new Valet Smart Centre.

The very flexible, very intelligent and very affordable system that controls your home environment - lights, power sources, security system, home entertainment and intercoms.

Smart Centre uses a state-of-the-art video touch screen which also acts as a monitor.

Smart Centre is user programmable. Its simple and clever menu lets you control everything in your home.

Smart Centre allows you to see who's outside from any camera.

The Smart Centre control panel can be located in the centre of your home.

Smart Centre controls your home security, lights and power functions.

Smart Centre controls your home security and lighting.

Smart Centre gives you more control and peace-of-mind.
